

reliability and biometry statistical pdf

Statistics is a branch of mathematics dealing with data collection, organization, analysis, interpretation and presentation. In applying statistics to, for example, a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model process to be studied. Populations can be diverse topics such as "all people living in a country" or ...

Abstract. The proper understanding and use of statistical tools are essential to the scientific enterprise. This is true both at the level of designing one's own experiments as well as for critically evaluating studies carried out by others.

A biologist's guide to statistical thinking and analysis

INTRODUCTION. Hepatomegaly is a frequent clinical finding in children, and may be caused by intrinsic liver diseases or by systemic alterations (1), and in case of clinical suspicion, ultrasonography (US) is generally the method of choice for starting diagnostic investigation in pediatric patients. Biometry studies in children by means of US, however, propose different methods (1-15), none of ...
