The Egan Report, titled Rethinking Construction, was an influential report on the UK construction industry produced by an industry task force chaired by Sir John Egan, published in November 1998. Together with the Latham Report, Constructing the Team, produced four years earlier, it did much to drive efficiency improvements in UK construction industry practice during the early years of the ...

Systems engineering is an interdisciplinary field of engineering and engineering management that focuses on how to design and manage complex systems over their life cycles. At its core, systems engineering utilizes systems thinking principles to organize this body of knowledge. Issues such as requirements engineering, reliability, logistics, coordination of different teams, testing and ...

Every minute the equivalent of one rubbish truck of plastic is leaking into streams and rivers, ultimately ending up in the ocean. This has a devastating impact on marine wildlife. An estimated 100 million marine animals die each year due to discarded plastic. And the problem is set to get worse ...

Rethinking plastic packaging – towards a more circular

[This analysis was written for the Unz Review] I have recently had the pleasure of watching a short presentation by Professor Stephen F. Cohen entitled “Rethinking Putin” which he delivered on the annual Nation cruise on December 2, 2017 (see here for the original Nation Article and original YouTube video). In his short presentation, Professor Cohen does a superb job explaining what Putin ...
