Risk factors for breast cancer - Wikipedia

NOTES: It's difficult to identify factors that may cause lymphoma, and many of the items within are classified as associations, and not as validated risk factors. An association is an observation that one event or condition occurs more commonly with another. But associations do not mean one thing caused another.

Risk factors - Brandi Williamson Photography

Women with close relatives who've been diagnosed with breast cancer have a higher risk of developing the disease. If you've had one first-degree female relative (sister, mother, daughter) diagnosed with breast cancer, your risk is doubled.
