The Semantic Web is an extension of the World Wide Web through standards by the World Wide Web Consortium (W3C). The standards promote common data formats and exchange protocols on the Web, most fundamentally the Resource Description Framework (RDF). According to the W3C, "The Semantic Web provides a common framework that allows data to be shared and reused across application, enterprise, and ...

In Chomskyan linguistics there was no mechanism for the learning of semantic relations, and the nativist view considered all semantic notions as inborn. Thus, even novel concepts were proposed to have been dormant in some sense. This view was also thought unable to address many issues such as metaphor or associative meanings, and semantic change, where meanings within a linguistic community ...

Description. The International Journal on Semantic Web and Information Systems (IJSWIS) promotes a knowledge transfer channel where academics, practitioners, and researchers can discuss, analyze, criticize, synthesize, communicate, elaborate, and simplify the more-than-promising technology of the semantic Web in the context of information systems. The journal aims to establish value-adding ...

Solution architects and developers have many architectural options at their disposal. In this article, we

discuss semantic model architectures and describe the semantic model approach and how it fits in context of other architectural patterns. We highlight the value of semantic models as a core component in solution design and show how IBM Integrated Information Core enables creation of model ...

Release cadence¶. Starting with Django 2.0, version numbers will use a loose form of semantic versioning such that each version following an LTS will bump to the next "zero" version. For example: 2.0, 2.1, 2.2 (LTS), 3.0, 3.1, 3.2 (LTS), etc. SemVer makes it easier to see at a glance how compatible releases are with each other.
