As the U.S. government's premier foreign affairs training provider, the Foreign Service Institute (FSI) is dedicated to ensuring the career-long learning opportunities required for success in today's global arena.

Foreign Service Institute

Habituation is an example of non-associative learning in which the strength or probability of a response diminishes when the stimulus is repeated. The response is typically a reflex or unconditioned response. Thus, habituation must be distinguished from extinction, which is an associative process. In operant extinction, for example, a response declines because it is no longer followed by a reward.
